

did you know?

technological advances in mass spectrometry occur on average every 18 months

Financial Solutions to Refresh your Technology

ThermoFisher
SCIENTIFIC

The world leader in serving science

Technology Refresh

Safeguard against technology obsolescence and invest with confidence in the latest instruments for your lab with our Technology Refresh program. Finance a new mass spectrometer with a 36-month operating lease, fixed monthly payments, and the option to upgrade to the latest available technology at the 24th month of your term. This program applies to new acquisitions, but can be modified for trade-ins and replacements for your older analytical equipment.

Benefits include:

- Protection against technology obsolescence
- Tax benefits: off balance sheet financing
- Preservation of capital budget for other expenditures
- Flexible end of term options
- Significant cash flow savings

Our Advantage

We understand your advanced equipment and application requirements and can help you find the right solution for your business, so you can invest confidently, in the instrumentation you need today.
